

Oxygen-Plus® Liquid Plant Food

Instructions

SAFER® OXYGEN-PLUS® 1-2-1 is an indoor plant food that supplies the essential primary nutrients to promote vigorous plant growth and plentiful blooms. Overwatering is a common cause of house plant failure. SAFER® OXYGEN-PLUS® Plant Food helps prevent overwatering problems.

How It Works:

Air spaces in the soil supply essential oxygen for plant vigor. Overwatering fills these spaces cutting off life-giving oxygen. SAFER® OXYGEN-PLUS® keeps your plants vigorous by chemically releasing oxygen.

How to Use:

Use every time you water. Mix before each use, just 2 pumps per quart of water (1 tsp. Per qt.). Water plants as usual. If soil is dry, dampen with water before use. SAFER® OXYGEN-PLUS® Plant Food lets you water and feed all your plants regularly without worry.

CAUTION: Keep out of reach of children. Harmful if swallowed. Avoid contact with eyes. Store in cool place.

Guaranteed Analysis 1-2-1

Total Nitrogen (N) 1%
0.9% Urea Nitrogen
0.1% Ammoniacal Nitrogen
Available Phosphate (P₂O₅) 2%
Soluble Potash (K₂O) 1%

Primary nutrients derived from: Urea, Urea Hydrogen Peroxide, Ammonium Phosphate, Phosphoric Acid and Potassium Hydroxide.

Also contains non plant food ingredient: 0.25% Available Oxygen derived from Urea Hydrogen Peroxide.
